WORLD, EU & GREEK ECONOMY

14.30 A WORLD IN GEOPOLITICAL TURMOIL, SUPPLY CHAIN DISRUPTION, AND CLIMATE CRISIS REDESIGNING POLICIES FOR ECONOMIC AND FISCAL SURVIVAL
Programming Partner: OECD Global Strategy Group, chaired by Greece

The world has shifted to a new geopolitical reality characterized by conflict and the weaponization of interdependence, multipolarity in tandem with polarization, and the growing inability of multilateral institutions to uphold a functioning rules-based global trading order. Governments are facing acute challenges for sustaining sound public finances. De-risking supply chains comes with costs. Meeting investment priorities in security and defence, supporting Ukraine, financing the green and digital transitions, engaging with the “Global South”, offsetting the influence of third powers, addressing the consequences of ageing and the climate crisis, all imply hard policy choices and trade-offs. What are the policy dilemmas emerging from this global landscape? And how should government policies be redesigned to navigate these acute challenges?

10.30 US AND EUROPEAN PERSPECTIVES ON UKRAINE'S POST WAR RECONSTRUCTION  
Programming Partner: RAND Corporation

Recovery and reconstruction in Ukraine might be the largest post-war rebuilding effort in modern history. If implemented successfully, it will take its place as the next step in the multigenerational effort to reconstruct and reintegrate Europe, from Western Europe after WWII, Central and Eastern Europe after the Cold War, and the Western Balkans after the violent breakup of Yugoslavia. While Ukraine can and should set the priorities, success will require joint U.S. and European leadership. This panel will explore the many dimensions of the Ukraine reconstruction challenge from the U.S. and the European perspective, including factors that have led to success in past efforts; financing; coordination among donors, international financial institutions, and Ukraine; ensuring the integrity of reconstruction spending; the need for Ukraine to engage in internal reforms; the security dimension of Ukraine's post-war reconstruction; and the upcoming Ukraine Recovery Conference 2024, to be hosted in Berlin this June.

16.55  THE WORLD ACCORDING TO GERMANY:
FROM REUNIFICATION TO REASSESSMENT

Liberal stability and political optimism that followed German unification and the end of European division in 1989 is now replaced by a status quo plagued by populism, unorthodox third powers and geopolitical hostility that has undermined peace even in Europe’s very territory. In response to Russia’s invasion of Ukraine, Germany launched a major policy shift regarding defense spending. How should German foreign policy’s pillars, aims and instruments be further reassessed in a world in conflict?

DEMOCRACY 2024 
THE CRUCIAL YEAR

19.50 FROM MARGINS TO MAINSTREAM: THE FAR RIGHT’S THREAT IN EUROPEAN POLITICS 
Programming Partners: Wilfried Martens Center for European Studies & Konstantinos Karamanlis Institute for Democracy

Populism and far-right extremism are not novel phenomena within European societies and politics. On the contrary, their deep roots in history have led to catastrophic outcomes for European nations. Ongoing wars in our neighboring regions, global economic challenges, and an unprecedented wave of immigration have strained the cultural, social, and religious cohesion of European societies, making the far-right ideology appear as a seemingly rational political alternative. Across Europe, extreme right-wing parties have either already gained significant support or are poised to do so in various types of elections. This time, the far-right threat is tangible. This panel, organized by the Martens Centre and the Konstantinos Karamanlis Institute for Democracy, will focus on these developments and endeavor to address some of the most pressing questions for the European Union in light of the formation of the new European Parliament.

The most personal film script of the Mauthausen camp survivor & founder of the modern Greek post-war theatre Iakovos Kambanellis (Stella, The Ogre of Athens, Girls in the Sun) takes its final form, in the place where the martyrdom was experienced and the original inspiration came from. Kambanellis’s Travelogue to Mauthausen-May 1988, was written during his visit and concert in Mauthausen Liberation and Commemoration Ceremony 1988, coming now to life on Mauthausen Liberation & Commemoration Day 2022 in its natural place -Mauthausen Memorial, Austria- for the first time. A poetic documentary and a unique musical, presenting the swansong Mauthausen Cantata new interpretation by Aristarchos Papadaniel (voice) & Aris Zervas (cello), published with the permission of the world-renowned Greek composer and political activist Mikis Theodorakis (Zorba, Z, Serpico) just one month before his passing.

The audio-visual project MAUTHAUSEN was co-financed by the German Federal Foreign Office from the German-Greek Future Fund.

17.45 CHINA'S ECONOMY: THE SLOWDOWN AND ITS CONSEQUENCES

Programming Partner: Chatham House

 China's economy is suffering from a slump in confidence, which is plainly evident among both households and firms. This slump is often explained as the consequence of the government's determined effort to wean the economy off its dependence on real estate investment, which has had negative consequences for local government finances, household balance sheets and the financial sector. Despite these hostile forces, the authorities have done little to loosen fiscal or monetary policy. This panel of renowned China experts will delve into the precise reasons for the economy's problems, and will discuss what should and what is likely to be done about it.

THE STATE OF THE WORLD

09.00 WHY IS THE US GROWING FASTER THAN EUROPE? AND, MUST EUROPE CHANGE COURSE?

Programming Partner: London School of Economics (LSE)

The US is recording higher economic growth rates than Europe. Why? The two have pursued different economic strategies in response to the COVID crisis, while having, of course, different capitalist cultures and systems. Can Europe grow and compete with its current macro-economic policy mix, governance, and welfare systems?

14.50 NETWORKING BREAK
EUROPE AND THE REGION

15.10 GEOPOLITICS AND TODAY’S MIDDLE EAST
Programming Partner: RAND Corporation

The present war in Gaza and the Abraham Accords have changed the dynamics to today’s Middle East. While we do not know where the Israel-Palestinian conflict will be in six months, there will undoubtedly be a new dimension to geopolitical rivalries in the region. The Houthis started attacking ships in the Red Sea in October 2023, but just one month before at the G20 summit, leading nations and the European Union announced a potential new India-Middle East-Europe Corridor. U.S. policy priorities are changing, from a disengagement preference at the beginning of the present Administration to once again trying to shape a new security and economic future for the region. Change is also important for Europe — and Greece — as the first European point of contact for the proposed IMEC is Piraeus. The panel will look beyond the Gaza war to U.S.-Europe-Middle East economic potential, including transit and technology, and likely Chinese, Iranian and Russian strategies in response.

16.55 BEYOND THE EUROPEAN PARLIAMENT ELECTIONS-BOLSTERING DEMOCRATIC PARTICIPATION IN THE EU
Programming Partner: European University Institute (EUI)

Low participation rates in elections for the European Parliament are only one manifestation of the challenge to the democratic process the EU and other countries are facing. The electoral success of populist and authoritarian voices implies the need to rejuvenate democracy. This panel discusses initiatives in this regard, from citizens assemblies to other forms of democratic participation.

✓ Kalypso Nicolaides, Professor Florence School of Transnational Governance, EUI
✓ Erik Jones, Director of the Schuman Centre at EUI
✓ Chair: Fabrizio Tassinari, Executive Director, Florence School of Transnational Governance, EUI

17.30 MULTILATERALISM MUST DELIVER
Programming Partner: Club de Madrid

The 2024 Summit of the Future to be held in September presents a pivotal opportunity to improve global governance and unify global efforts in shaping a brighter, shared future for humanity. Panelists will have a conversation on the fundamental purposes of the global governance system and the critical gaps that exist today, particularly those hindering the achievement of the Agenda 2030 goals. The focus will be on identifying pressing issues that need to be addressed in the three main outputs expected of the forthcoming Summit: the proposed Pact for the Future, A Declaration on Future Generations, and a Global Digital Compact.

18.05 SOUTH VS NORTH: CAN THE G7 BE A REAL BRIDGE?
Programming Partner: Italian Institute for International Political Studies (ISPI)

The Global South is getting more and more vocal in its requests for a fairer and bigger role in world affairs. This may be seen as a challenge to the Global North and to the international liberal order. Can the G7 build new bridges rather than new walls? How to safeguard the international economy and avoid further trade wars and protectionism? Which further steps should the G7 take to promote sustainable development in low- and middle-income countries? Which room for North-South cooperation on green transition and adaptation to climate change?

14.55  BUILDING RESILIENCE: SUPPORTING EU MEMBER STATES IN CLIMATE CHANGE ADAPTATION AND CIVIL PROTECTION

Programming Partners: DG Reform & European Investment Bank

Climate change is very real and severely impacts Member States, including putting a strain on civil protection systems, as made evident by the destructive floods, snowstorms, and wildfires across Europe. The EU strives to be climate-neutral by 2050, by saving, diversifying, and producing green energy supplies. At the same time, the EU, through the Commission’s Technical Support Instrument (TSI) and EIB funding, aims to support Member States in adapting to the new realities of climate change and in strengthening their civil protection systems.

This panel discussion aims to explore Member States’ actions for addressing the impact of climate change and strengthening civil protection, the relevant support provided by the EU, through the Commission’s TSI and EIB funds, as well as the pivotal role of the private sector.

16.55 FINANCING EUROPE'S FUTURE

Programming Partner: European Stability Mechanism (ESM)

Ageing, climate change and the risk of geo-economic fragmentation will have a major impact on Europe's future growth and therefore Europe needs determined action to maintain its international standing. The investment needs over the coming years will be enormous. Both public and private initiatives will be crucial. With countries being advised to keep spending in check, an EU Capital Markets Union could play a significant role. The question therefore is: What can be done, including at the EU level, to finance the multiple challenges European countries are facing?

✓ Marialena Athanasopoulou, Deputy Head, Economic Risk Analysis, ESM
